

Advocating...
Patient Safety, Real Time Visibility, and
Operational Efficiencies™

www.rfidinhealthcare.org

Mission Statement:

The RFID in Healthcare Consortium (RHCC) is a primary source for vendor neutral, educational programs; industry information; and other value added services pertinent to RFID and RTLS technologies. The RHCC serves the needs of end user communities in the healthcare, assisted living, and nursing home industries.

Vision Statement:

To raise the awareness level and promote the adoption of RFID and RTLS technologies in the healthcare, assisted living and nursing home industries through high quality, vendor neutral, educational programs.
